Subject: Application for an Engineering Position at your organisation

---

Dear Hiring Manager,

I am writing to express my sincere interest in an Engineering Position at your organisation. I am an innovative electrical engineer skilled in Android app development and designing electrical control systems. I've developed a portable, complementary voting system software that was nominated for adoption by Kenya's IEBC and also came up with the existing plant control system for KenGen's Kipevu station 3.

Skills:

1. **Android App Development:**
    - At Sololearn Online Learning Platform, I gained valuable experience in Android app development. I've worked extensively with Firebase for data storage, automated build processes, and even created custom views and animations using the Android SDK.
2. **Control Systems (SCADA):**
    - During my time at Kenya Electricity Generating Company (KenGen) PLC, I had the opportunity to design and implement an improved plant control system. This involved using PLC and SCADA software like SIMATIC WinCC. It's exciting to showcase my expertise in control systems through this project.
3. **Programming Languages:**
    - I'm proficient in several programming languages, including Python, C++, Kotlin, SQL and HTML. These languages are incredibly valuable for both software development and web applications.
4. **Web Development (Angular):**
    - I also have experience in web development using Angular. Building responsive and user-friendly web applications is a fascinating aspect of my skill set.

Strengths:

1. **Adaptability:**
    - My diverse experiences, ranging from Android development to electrical systems, highlight my ability to adapt to different contexts. Flexibility is key in our ever-evolving tech landscape.
2. **Efficiency:**
    - I take pride in implementing automated build processes and improving plant control systems. Efficiency matters, whether it's in code or managing power systems.

3. **Technical Proficiency:**
    - Certifications in Java, AWS, and SQL underscore my technical strengths. Staying up-to-date with technology is crucial.
4. **Analytical Thinking:**
    - As a software engineer, I thrive on complex problems. Analyzing, identifying patterns, and designing efficient algorithms are all part of the puzzle.

Work Style:

1. **Collaborative:**
    - Teamwork is essential. Whether it's software development or electrical engineering, collaboration leads to better outcomes.
2. **Focused and Persistent:**
    - Attention to detail and persistence are my allies when repairing and maintaining electrical systems.
3. **Inquisitive:**
    - I'm naturally curious and love exploring different technologies and frameworks. There's always something new to learn.

Personality:

1. **Attention to Detail:**
    - Precision matters when writing code. Small errors can have significant consequences. I pay close attention to details to ensure robust and bug-free software.
2. **Resilience:**
    - Debugging, setbacks, and deadlines—they're all part of the journey. A positive attitude helps me overcome obstacles.
3. **Empathy:**
    - Understanding end-users' needs and designing user-friendly interfaces requires empathy. Good software engineers prioritize the user experience.

I eagerly await the chance to discuss my abilities further. Summon me for an interview at your convenience. You can reach me via phone (+254722296937) or email (blevinetrevor@gmail.com).

Warm regards,

BLEVINE TREVOR WANJALA.

BLEVINE TREVOR WANJALA

blevinetrevor@gmail.com, +254722296937, Nairobi.

Innovative electrical engineer skilled in Android app development and designing electrical control systems. I've developed a portable, complementary voting system software that was nominated for adoption by Kenya's IEBC and also came up with the existing plant control system for KenGen's Kipevu station 3.

Work Experience

Android App Developer

Sololearn Online Learning Platform - Nairobi
August 2022 to Present

- Utilized Firebase to store and retrieve data, resulting in improved app performance and reliability
- Implemented automated build processes that reduced development time by 45%
- Leveraged the Android SDK to create custom views and animations, enhancing the user experience

Electrical Internship

Kenya Electricity Generating Company (KenGen) PLC - Mombasa
April 2022 to September 2022

- Repaired and maintained electrical systems and components, including motors, controllers, and switches
- Designed and implemented an improved plant control system using PLC and SCADA softwares like SIMATIC WinCC

Education

Bsc. in Electrical and Electronics Engineering

The University of Nairobi - Nairobi
September 2018 to September 2023

Kenya Certificate of Secondary Education in Secondary Education

Alliance High School - Kikuyu
February 2014 to November 2017

Skills

- Computer hardware and software troubleshooting, Computer Networks
- Control System (SCADA)
- Programming languages: Python, C++, Kotlin, HTML
- Project leadership
- Excellent communication skills

Certifications and Licenses

Java Certification

April 2019 to Present

• Acquired in-depth knowledge of core Java concepts, including object-oriented programming, data structures, and algorithms
• Demonstrated proficiency in using popular Java frameworks, such as Google Web Toolkit, to develop robust and scalable applications

AWS Certification

October 2023 to Present

• Proficient in using a wide range of AWS services, such as EC2, S3, RDS and Lambda to build and manage cloud applications.
• Knowledgeable about AWS security best practices, IAM (Identity and Access Management), and compliance standards, ensuring secure clouddeployments.

SQL certification

March 2021 to Present

• Familiarity with various SQL dialects (e.g., MySQL, PostgreSQL, SQL Server, Oracle) and the ability to adapt SQL skills to different database systems
• Knowledge of data modeling concepts and the ability to create Entity-Relationship Diagrams (ERDs) for database design.

Web Developer with Angular

October 2023 to Present

• Awareness of web accessibility standards (WCAG) and best practices to ensure web applications are accessible to all users.
• Experience in integrating Angular applications with RESTful APIs to fetch and display data from back- end services.

Dear Wanjala,

RE: INDUSTRIAL TRAINING ATTACHMENT

Following your application for the above, this is to inform you that you have been granted the Industrial training attachment in **Operation Division, Electrical Department Kipevu Power Station** with effect from **16th May** to **29th July 2022**.

Please report to the **Assistant HR Services Manager,** Thermal with a copy of your Covid-19 vaccination Certificate and Personal Accident Insurance cover valid for three **(3)** months. You will also be issued with details of our training program. Kindly ensure you report on time, as we shall not issue an extension.

You will cater for your upkeep while at the station. The Company is under no obligation to offer you employment after your attachment.

You are expected to abide by all rules and regulations while on this attachment and an Attachment Report submitted to the undersigned after completion of your attachment.

Yours faithfully
For: KENYA ELECTRICITY GENERATING COMPANY PLC

JOY ODUOR (Mrs.)

TO WHOM IT MAY CONCERN

BLEVINE TREVOR WANJALA

This is to confirm that the above-mentioned who is a student at the University of Nairobi was on industrial training attachment in our organization from the **16th May, 2022 to 30th August, 2022**. During this period, he was attached to the **Operation Division, Electrical Engineering Department, Kipevu Station – Mombasa** doing the following duties:

- Designing and development of electrical systems for power generation
- Evaluation of electrical systems, components, and applications to ensure performance and efficiency
- Collaboration with multidisciplinary teams to integrate electrical systems into larger power generation projects
- Troubleshooting and Maintenance of existing electrical components
- Ensuring compliance with industrial standards
- Providing technical support and guidance to other team members, sharing their expertise and knowledge
- Participating in project planning, budgeting, and scheduling activities

Mr. Wanjala was found to be a hard working and innovative engineering student who is always ready and willing to learn new concepts.

We wish him success in all of his future endeavours.

Yours faithfully
For: KENYA ELECTRICITY GENERATING COMPANY PLC
